

Richard J. Stride, PsyD, LPC, LMHC

Secretary, NBFEE

After Dr. Richard Stride was certified in December 2006, a few years after the inception of NBFEE, he volunteered to be an NBFEE “Train the Trainer.” This was a program implemented in 2008 to assist use in training candidates throughout regions of the United States. He was instrumental in the development of how the oral process should be conducted. In 2008, Dr. Stride joined Dr. Val and me in a two-day certification training in Hawaii.

When NBFEE became a nonprofit public charity in 2009, Dr. Stride agreed to be one of our highly esteemed board members. Additionally, he was our very first Chair in NBFEEs Oral committee to examine our candidates after submitting their sample reports. He was a valuable part of assisting in developing the policy and procedures for our oral review, and to strengthen the process for our candidates in submitting their reports.

NBFEE recognizes Dr. Richard Stride for his unrequited loyalty and contributions to NBFEE when NBFEE was in its infancy stages. His vision, contribution, and devotion to our mission, has helped NBFEE today, create the genesis for our continued growth and national recognition.
